Instructions To Figure Shipping and Handling Charges

(Each catalog item has a shipping weight or "freight" listed beside the price.)

❶ Figure your total shipping weight (from the order form).

❷ Find the first three numbers of your zip code in the "ZONE CHART." Immediately to the right of your zip code is your zone number.

❸ Multiply the price per pound (below your zone number) by the total pounds of your order.

SAMPLE: Shipping 100 lbs. to Zip Code 95511. 955 = Zone 7. Zone 7 = 71 cents per pound. 100x71 cents = $71 shipping and handling.

MOTOR FREIGHT SHIPPING INSTRUCTIONS

Oversized and overweight parts shipped via motor freight must be paid for in advance. There is a small handling and crating charge to help protect your parts.

NOTE: *We ship the most economical way. We will refund any excess shipping costs.*

NOTE: *Call for information on delivery outside continental United States or 2nd Day Air service.*

NOTE: *We reserve the right to improve our product. If you don't see the parts you're looking for in the catalog, contact us. We have many more parts, new and used, on hand.*
